Since the presidential election we find South Carolina and Georgia justifying disunion on the ground that some of the northern states have passed personal liberty laws, and demanding that these shall be repealed. The democratic press take this cue from the nullifiers, and immediately set up a howl about these laws. Certainly, if there is anything so very bad in personal liberty laws, these vigilant guardians of the public weal should have discovered it before. If these enactments were a cause sufficient to dissolve the Union, our democratic brethren have not done their whole duty, neglecting till this late day to point out the dangerous consequences of permitting them to remain on our statute books. We do not think these laws were once spoken of, or thought of, during the presidential campaign in this state. Every other conceivable argument was used against the republicans, but not a word was said on this subject. If it had been alluded to, even in the south, the friends of the disunionists would have taken the hint, and went into spasms over the atrocious proposition to protect, as far as possible, the inhabitants of this state from the grasp of the kidnapper, who prowls about under the shadow of the fugitive slave law.

We must, therefore, conclude that South Carolina, long ago—some of her orators say twenty-five years ago—resolved to leave the Union, upon the first favorable opportunity, and that the uproar about the laws to which we have alluded, is altogether an after thought, to justify treason which has been meditated for a great while. We do not believe they have received, or even apprehended any harm from them. If they nullify constitutional laws they are void, and the supreme court of the United States can protect the south from their effects.

In this state no case has ever arisen under them, and we question whether there ever will. As long as the present fugitive slave law exists, with all its atrocious provisions, the people will be a law unto themselves, to protect citizens of this state from outrage and wrong. If the south really desires the repeal of these personal liberty acts, or wishes to change public opinion in the north in relation to the recapture of runaway slaves, let them come forward and propose a decent fugitive slave law. They might then, with some show of justice ask us to modify our law on this subject. When they do this, or their friends the democratic press do it for them, with appearance of sincerity we will consider their new demand to take a backward step in our legislation.

KENTUCKY ELECTION.—The Louisville Courier of the 22d inst., says the vote of all the counties but four, Breathitt, Owsley, Pike and Perry, has been received. It is as follows, according to our table, viz:

Breckinridge	51,748
Bell	65,468
Douglas	26,671
Lincoln	1,338

Showing that Breckinridge got but 723 plurality over Bell, thus obtaining the electoral vote, although there is a majority of 8,000 against him on the combined opposition vote of the state.

THE VOTE OF NEW YORK—OFFICIAL.—The Albany Evening Journal of Thursday last, brings us the following report for the Empire state:

For Lincoln	361,367
For Fusion	313,640

Lincoln's majority, 47,727
For Morgan, 358,311
For Kelly, 293,321
For Brady, 19,652

Morgan over Kelly, 44,990
Morgan over both, 45,338

The result as declared by the state canvassers will, perhaps, vary slightly but not materially from this.

The total vote of the state for president is 675,100—an increase of 50,000 over the vote of 1856.

HAD A VISION.—The Green Bay Advocate says that Col. Sam Ryan, register of the land office at Menasha, and for many years a staunch democrat, came to the polls on election day with something weighing on his mind. He had a dream the night before, and saw Gen. Jackson, who told him to vote for Lincoln—that he was the man for the country. And the Col. voted for Lincoln and the rest of them.

MINNESOTA.—There are but four democrats in the Minnesota legislature. *Madison Argus.*

And these are senators elected last year, and holding over.

SHEBOYGAN COUNTY has a population of 27,982, and the city of Sheboygan 4,271.

GRAIN TRADE AT MILWAUKEE.—The receipts for the season thus far are equivalent to 9,456,000 bushels of wheat, against 5,800,000 bushels in 1859. Shipments thus far are equal to 10,091,453 bushels, against 6,093,462 bushels in the same time last year.

The vote of Missouri at this election is 163,000, an increase of 57,000 over the vote of 1856. This shows the rapid progress of the state. It would be far greater if there were no slaves in the state.

THE ANCIENT CITY OF GREEN BAY has no flooring mill. The press says that "one of the immediate wants of our city is a flooring mill to accommodate the people of this immediate section. The distance now necessarily traveled by farmers in order to get their grists to mill is from 5 to 15 miles. This is a great tax upon their time and pockets."

ELECTIONEERING IN CANADA.—The Hamilton Spectator, an organ of Sir Allan N. McNab, who has just been elected a member of the Canadian parliament, over J. J. Douglass, of Windsor, has an article regarding the means purporting to have been used to accomplish his defeat. The Spectator says, "his opponents had the baseness to start a report through the division that he was dead; nay more, that they actually tied a piece of black crepe to the door of the hotel where he was staying in Chatham, and placed a label above it announcing his death!" That is a little ahead, in the electioneering line, of anything we have yet seen attempted in "the states."

NORTH CAROLINA.—The Fayetteville Observer gives the returns from sixty-five counties in North Carolina, which foot up as follows—Breckinridge 35,988, Bell 37,071, Douglas 2,376. Bell's gain in these counties is 1,181. With the same proportional gain in the twenty-one counties to hear from, Breckinridge's majority will be about 4,700. The Douglas vote, if in the same proportion as so far, will be between 3,100 and 3,200, and Breckinridge's clear majority in the state 1,500 to 1,600.

POPULATION OF MASSACHUSETTS.—The census of the old Bay State has just been completed, and the population numbers 1,231,497—an increase since 1850 of 236,983, or 22 per cent. This is a larger percentage of increase than any other decade in the history of the state, save the ten years between 1840 and 1850, when it was 34 per cent.

The present population of the state will entitle her, under any ratio of representation that will be likely to be adopted, to ten representatives in congress, which is one less than she now has.

FROM PRE'S PEAK.—The last express via Fort Kearney brought \$14,000 in gold. Weather at Denver city on the 21st intensely cold—thermometer at 10 deg. below zero, in the morning. The republicans are joyous at the news of Lincoln's election and all others express themselves against disunion.

The Michigan Observer says that petitions are circulating in that county in favor of the commissioner system of county government.

It takes the Maine, girls to "meet emergencies." A young girl, belonging to Aroostook county, Maine, who had been spending some time in Boston, returned to her home recently. She had written to her father to meet her at Mattawamkeag. By some mistake or delay he failed to do so, and the young lady not wishing to await his coming, "footed it" twenty-seven miles.

A dispatch from Milledgeville says—"The legislative committee is now down on the river testing a Connecticut gun, with which to fight for southern rights. I fear northern gunsmiths will make more out of our present political difficulties than any one else."

TAKEN TO WAUPUN.—The sheriff from Milwaukee on Monday morning, took four prisoners to Waupun, viz: Witopski, May, Mary Ann Jackson and Kate Bowls. They were sentenced from the municipal court, the early part of last week.

Tim Rivers the "war horse" of the democracy of Virginia, says that the minute men organization is the greatest humbug ever invented.

SAN EXOUEN.—The New York safety committee are denounced at the south as selfish humbugs, who are as bad as the abolitionists!

The city of New York alone contains as many white inhabitants as the states of Georgia and South Carolina.

A poor widow lady in Lansing, Mich. named Mrs. Sparrow, who has several children dependent upon her, was "consolated" the other day by the intelligence that \$20,000 had been bequeathed to her recently by a dying relative. We wish all poor widows could get such bequests just at this time.

UNDER THE HEAD OF "MARRIAGE EXTRAORDINARY."—The Louisville Journal of yesterday morning says: "The announcement yesterday that a young lady of wealth, family and personal beauty, down town, had eloped with an Irish laborer, set all the gossipers agog."

GRAIN MOVEMENTS.—The Detroit Tribune of Thursday says: "Seventy odd sail of vessels have passed down during the past 36 hours, and all grain loaded; whose aggregate cargoes are estimated to be 1,125,000 bushels."

THE BURCH DIVORCE CASE.—The Chicago Journal, speaking of the trial of this case, says:

"It is a sad, sad picture of wretchedness, whatever the issue may be. Thus throwing open a home to the public scrutiny, where all was supposed to be happiness and comfort, and revealing partial glimpses of other homes upon which there are shadows, is no pleasing thought. It reveals some men in a true light to the community, and serves the excellent purpose of exposing them to the scorn and just indignation of the community. On the other hand, it shows conclusively that palatial mansions, rich dresses, liveried servants, costly viands, splendid conservatories and bank bills are not indices of happiness."

A PROFITABLE NEGRO.—A negro in Vicksburg recently won 2,000 for his master in a race with a white man. The affair created much excitement, and it was said that \$10,000 changed hands on the result.

DRINKING IN PITTSBURGH.—The sum expended for spirituous and malt liquors in Pittsburgh, wholesale and retail, every year exceeds \$5,000. There are 763 licensed liquor sellers in the smoky city.

MUFFINS.—These deserve "extensive circulation." We have the recipe as a special favor from a lady friend, at whose table we have enjoyed some capital muffins, made as follows: To 1 quart of milk, add 2 eggs well beaten, a lump of butter half the size of an egg, and flour enough to make a stiff batter. Stir in half a pint of yeast. Let them stand until perfectly light, and then bake on a griddle, in tin rings made for that purpose. These are merely strips of tin three quarters of an inch wide, made into rings from 2 1/2 to 3 inches in diameter, without bottom—the ring being simply placed on a griddle, and the batter poured in to fill it.

The ancient city of Green Bay has no flooring mill. The press says that "one of the immediate wants of our city is a flooring mill to accommodate the people of this immediate section. The distance now necessarily traveled by farmers in order to get their grists to mill is from 5 to 15 miles. This is a great tax upon their time and pockets."

Additional from California.

It is believed that a majority of the people of California voted against calling a constitutional convention.

At 8 o'clock to-day the express arrived at Fort Churchill, whence the news of the result of the presidential election was sent to San Francisco and published in the extra Bulletin and Alta California before 9 o'clock. The news was expressed from St. Joseph to the telegraph station in the unprecedented time of six days. It produced a sensation. The republican state committee issued an address urging a general illumination of San Francisco to-morrow evening.

A school census of San Francisco gives 15,400 children under 18 years.

Espananza, one of the ring-leaders of the filibusters who went into Lower California from Los Angeles country recently, has been killed in a fight. The band is committing murders and robberies by the wholesale on the Peninsula. The citizens of San Diego have sent relief to the Governor of Lower California.

A letter from Walla-Walla, Washington territory, to the Portland (Oregon) News, dated Nov. 24, says that an express had just arrived in the Valley from the command of Capt. Dent, who was ordered out upon the emigrant road in the vicinity of Fort Boyd to investigate the report of the massacre of the emigrants. Capt. Dent found some 10 or 12 emigrants still alive, and subsisting upon the dead bodies of their associates. The messenger reports that some 12 dead bodies had been found, and that 10 more were still alive, scattered in parties of 3 or 4, for a distance of twelve miles in the vicinity of the attack. Some had died from actual starvation. Mr. McDowell, brother of Mrs. Meyers, with five children, and Miss Trimball, were among the living. The party were subsisting upon the dead body of Meyers, the father and husband of the family.

Capt. Dent will return in a few days, when a full report will be forwarded to the Portland press. The most horrible slaughter of so many innocent emigrants calls for a searching investigation by the authorities.

Lincoln in Kansas.

It is not possible for any one at a distance to conceive with what emotions of joy the news of the election of LINCOLN fills the people of Kansas. They have been so long ground by the heel of oppression, and drunk the bitter draught of malice and spite, which administration and conservatives have sent fit to pour out upon them, that the shout of victory that we hear echoed from one state to another, electrifies them with new life and new hopes; and even the dread of the cold winter, with its scanty supplies, is half taken away in their transports of joy. As the news travels westward the illumination of every hamlet and town, the booming of cannon, and the bright joyful faces, all speak of the "glad tidings of great joy."

LINCOLN is President, and in him the people think they see a man who will bring the government back to its pristine purity; one who dares to administer even-handed justice to those whom a southern oligarchy have proscribed.

In Topeka, the evening after the reception of the news of LINCOLN's election, several buildings were illuminated, among them were Mr. Bartlett's store, Mr. Hovender's market, the news depot, and the Record office. The cannon which has been the faithful guardian of our town since the days of '56, spoke forth in its thundering tones, gladdening the hearts of the people for miles around. *Topeka Record.*

A FEMALE VOTER IN NAPLES.—At the late vote on annexation in Naples, a woman, from her heroism, has become famous. La Sangiovanna, claimed the right to vote, and voted. She is the leader of a large district in the city of Naples, and fought at Capua. Having borne arms she was adjudged to have gained the right of suffrage.

It has been calculated that the great Arabian bore at Columbus, Ohio, would, if passing through to the other side of the globe, strike exactly fifteen miles from the great Chinese wall, about 250 miles from Peking. It is suggested that they can run telegraph through it if they don't find water. They will probably, however, have an injunction come up through the hole from some established line.

THE WHITE HOUSE LADIES.—The Springfield correspondent of the New York Herald writes:

Mrs. Lincoln has many callers. She does not appear to realize that she has been elected to the White House for the next four years, but by the easy grace and dignity with which she receives those who call upon her daily, she shows that she possesses the necessary qualifications to assume the higher duties of the president's wife at Washington. Her sister, Mrs. Miriam Edwards, of this city, an educated and accomplished lady, and a niece, a beautiful young lady of eighteen, will accompany Mrs. Lincoln to the White House and assist her in doing the honors of the president's levee.

Every household has its pet names. Mr. Jones enchants his helmsman by calling her "his idol." Jones, however, privately spells it i d o l.

AN INTELLIGENT WITNESS.—One of the witnesses who testified against Mrs. Burch in the divorce trial, was asked to write a few lines to show his intelligence. The court was astonished by the production of the following:

"November 19 this day I commence to give my depositions in this dupug circuit court napparinelly Illinois."

Those last two words designate Napierville, Ill.

The state canvassers meet to-morrow. We hear that the returns from Winnebago county, and one or two other counties, are not yet received, which will probably cause the canvassers to adjourn over for three days. *Madison Patriot of yesterday.*

WASHINGTON, Nov. 27.

The Treasurer's report will be a brief, business document, merely rehearsing the operations for the fiscal year without making a special recommendation. The condition of the finances will be its most interesting feature; immediate relief for the Treasury upon the meeting of Congress will be necessary to save the department from actual suspension. The warehouse system is found to be a great drawback on the treasury at a time like the present, when large quantities of merchandise can be stored if payment of duties be withheld. This experience has satisfied even Mr. Cobb that it ought to be abolished.

CHARLESTON, Nov. 26.

The city is quiet to-day. The members of the legislature have mostly gone to Columbia. The regular session opens to-night. The Governor's message will be read on Thursday. It is rumored that troops are coming to Fort Moultrie. It is now evident that none will be sent to the convention unless strongly committed to secession.

COLUMBIA, S. C., Nov. 26.

The legislature has just read for the first time a bill to arm the state and to raise \$40,000 for that purpose.

Readers of aid from other states continue to come to the Governor. All the support die or see the state a subjugated province than passively submit to a continuance of northern encroachments on her rights.

The Governor will send in his message at one o'clock to-morrow. He will recommend that the legislature should, to some extent, encourage and foster direct trade with Europe and the Continent, by taking upon itself a part of the losses which might follow from the establishment of direct trade, and to this end a proposition of some citizens of Charleston to establish a line of steamers between that port and Liverpool is favorably thought of. In the event of success, the state will be enabled to assert her sovereignty, it is probable that he will advise some legislation, more particularly defining treason to the state, and settling the punishment for that offense. It is believed that he will advise that a law be passed punishing summarily and severely and heavily, perhaps with death, any person who circulates incendiary documents, avows himself an abolitionist, or in any way endeavors to incite the slaves to insurrection or insubordination, and that South Carolina shall bind herself to take \$50,000 worth of arms annually for five years from Major Ripley, in accordance with the proposition of that gentleman, and that a negotiation be entered into between South Carolina, Georgia and Alabama to fix upon a site for the armory. He probably will recommend what the legislature has already anticipated him in, that is to arm the state at the earliest practicable period, so as to prepare for the first act on the part of the federal government.

RICHTON, Va., Nov. 26.

A HOOSIER WIFE.—In the late catastrophe on the Ohio river, involving the loss of the fine steamer Pacific, there occurred an instance of heroic conduct on the part of a wife worthy of mention. Mrs. J. W. McDonald of this state, was traveling with her husband, who was lying very low at the time with consumption. The announcement of the conflagration was too much for his delicate nerves, and the poor man swooned and died amid the excitement. The wife refused to leave the corpse of her husband to the merciless, fiery element, but stood bravely by his death-bed, until the flames licked the panels of the state room in which the corpse lay. In vain she offered almost fabulous sums of reward to any one who would convey the body to the shore, and in sheer desperation she caught up the lifeless form and bore it to the guards of the boat. It fell from her grasp, however, and was destroyed. It is presumed, with the boat, Mrs. McDonald remained in Uniontown after the disaster, in the hope of gathering up the ashes of her deceased husband. *Lafayette Journal.*

THE LAST DIVORCE CASE.—A pious wife in Portland, Maine, sued for a divorce because her husband was profane. Judge Appleton told her to return to her husband and reform him.

COGNAC.—The sudden changes of our climate are sources of PNEUMONY, BRONCHITIS, and ASTHMA AFFECTIONS. Last spring, when May flowers bloomed fresh and bright, little Estelle, only two years old, a bright flower of earth, was taken by angel hands and transplanted to the garden of Heaven. But the little baby angel was lonely, and seeing her little sister exposed to the evils of life she bent gently from the skies and whispered to her to come up higher; and there the sister angel, warbling in union their songs of praise, and awaiting the coming of their sorrowing parents. *COX.*

The New Demand.

Since the presidential election we find South Carolina and Georgia justifying division on the ground that some of the northern states have passed personal liberty laws, and demanding that these shall be repealed. The democratic press take this cue from the nullifiers, and immediately get up a howl about these laws. Certainly, if there is any thing so very bad in personal liberty laws, these vigilant guardians of the public weal should have discovered it before. If these enactments were a cause sufficient to dissolve the Union, our democratic brethren have not done their whole duty, neglecting till this late day to point out the dangerous consequences of permitting them to remain on our statute books. We do not think these laws were once spoken of, or thought of, during the presidential campaign in this state. Every other conceivable argument was used against the republicans, but not a word was said on this subject. If it had been alluded to, even in the south, the friends of the disunionists would have taken the hint, and went into spasms over the atrocious proposition to protect, as far as possible, the inhabitants of this state from the grasp of the kidnapper, who prowls about under the shadow of the fugitive slave law.

We must, therefore, conclude that South Carolina, long ago—some of her orators say twenty-five years ago—resolved to leave the Union, upon the first favorable opportunity, and that the uproar about the laws to which we have alluded, is altogether an after thought, to justify treason which has been mediated for a great while. We do not believe they have received, or even apprehended any harm from them. If they nullify constitutional laws they are void, and the supreme court of the United States can protect the south from their effects.

In this state no case has ever arisen under them, and we question whether there ever will. As long as the present fugitive slave law exists, with all its atrocious provisions, the people will be a law unto themselves, to protect citizens of this state from outrage and wrong. If the south really desires the repeal of these personal liberty acts, or wishes to change public opinion in the north in relation to the recapture of runaway slaves, let them come forward and propose a decent fugitive slave law. They might then, with some show of justice ask us to modify our law on this subject. When they do this, or their friends the democratic press do it for them, with appearance of sincerity we will consider their new demand to take a backward step in our legislation.

KENTUCKY ELECTION.—The Louisville Courier of the 22d inst., says the vote of all the counties but four, Breathitt, Owsley, Pike and Perry, has been received. It is as follows, according to our table, viz:

Breckinridge.....	51,748
Bell.....	65,468
Douglas.....	25,671
Lincoln.....	1,338

MARYLAND.—The complete vote in this state is as follows:

Breckinridge.....	42,185
Bell.....	41,400
Douglas.....	5,874
Lincoln.....	2,293

Showing that Breckinridge got but 725 plurality over Bell, thus obtaining the electoral vote, although there is a majority of 8,000 against him on the combined opposition vote of the state.

THE VOTE OF NEW YORK—OFFICIAL.—The Albany Evening Journal of Thursday last, brings us the following report for the Empire state:

For Lincoln.....	361,367
For Fusion.....	313,640

Lincoln's majority, 47,727
For Morgan, 358,311
For Kelly, 293,321
For Brady, 19,652

Morgan over Kelly, 64,999
Morgan over both, 45,338

The result as declared by the state canvassers will, perhaps, vary slightly but not materially from this.

The total vote of the state for president is 675,100—an increase of 80,000 over the vote of 1856.

HAD A VISION.—The Green Bay Advocate says that Col. Sam Ryan, register of the land office at Menasha, and for many years a staunch democrat, came to the polls on election day with something weighing on his mind. He had a dream the night before, and saw Gen. Jackson, who told him to vote for Lincoln—that he was the man for the country. And the Col. voted for Lincoln and the rest of them.

MINNESOTA.—There are but four democrats in the Minnesota legislature.—*Madison Argus.*

And these are senators elected last year, and holding over.

SHEBOYGAN COUNTY has a population of 27,082, and the city of Sheboygan 4,271.

GRAIN TRADE AT MILWAUKEE.—The receipts for the season thus far are equivalent to 4,486,000 bushels of wheat, against 5,800,000 bushels in 1859. Shipments thus far are equal to 10,091,453 bushels, against 6,000,462 bushels in the same time last year.

The vote of Missouri at this election is 163,000, an increase of 57,000 over the vote of 1856. This shows the rapid progress of the state. It would be far greater if there were no slaves in the state.

The ancient city of Green Bay has no flouring mill. The Press says that "one of the immediate wants of our city is a flouring mill to accommodate the people of this immediate section. The distance now necessarily traveled by farmers in order to get their grain to mill is from 5 to 15 miles. This is a great tax upon their time and pocket."

ELECTIONS IN CANADA.—The Hamilton Spectator, an organ of Sir Allan N. McNab, who has just been elected a member of the Canadian parliament, over J. J. Dougall, of Windsor, has an article regarding the means purporting to have been used to accomplish his defeat. The Spectator says, "his opponents had the baseness to start a report through the division that he was dead; nay more, that they actually tied a piece of black crepe to the door of the hotel where he was staying in Chatham, and placed a label above it announcing his death!" That is a little ahead, in the electioneering line, of anything we have yet seen attempted in "the states."

NORTH CAROLINA.—The Fayetteville Observer gives the returns from sixty-five counties in North Carolina, which foot up as follows—Breckinridge 35,983, Bell 37,071, Douglas 2,376. Bell's gain in these counties is 1,181. With the same proportional gain in the twenty-one counties to hear from, Breckinridge's majority will be about 4,700. The Douglas vote, if in the same proportion as so far, will be between 3,100 and 3,200, and Breckinridge's clear majority in the state 1,500 to 1,600.

POPULATION OF MASSACHUSETTS.—The census of the old Bay State has just been completed, and the population numbers 1,231,497—an increase since 1850 of 236,983, or 22 per cent. This is a larger percentage of increase than any other decade in the history of the state, save the ten years between 1840 and 1850, when it was 34 per cent.

The present population of the state will entitle her, under any ratio of representation that will be likely to be adopted, to ten representatives in congress, which is one less than she now has.

FROM PIKE'S PEAK.—The last express via Fort Kearney brought \$14,000 in gold. Weather at Denver city on the 21st intensely cold—thermometer at 10 deg. below zero, in the morning. The republicans are joyous at the news of Lincoln's election and all others express themselves against disunion.

The Richmond Observer says that petitions are circulating in that county in favor of the commissioner system of county government.

It takes the Maine girls to "meet emergencies." A young girl, belonging to Arrostook county, Maine, who had been spending some time in Boston, returned to her home recently. She had written to her father to meet her at Mattawamkeag. By some mistake or delay he failed to do so, and the young lady not wishing to await his coming, "footed it" twenty-seven miles.

A dispatch from Milfordville says:—"The legislative committee is now down on the river testing a Connecticut gun, with which to fight for southern rights. I fear northern gunsmiths will make more out of our present political difficulties than any one else."

TAKEN TO WAUPUN.—The sheriff from Milwaukee on Monday morning, took four prisoners to Waupun, viz: Witposki, May, Mary Ann Jackson and Kate Bowls. They were sentenced from the municipal court, the early part of last week.

Tim Rivers the "war horse" of the democracy of Virginia, says that the minute man organization is the greatest humbug ever invented.

SAD ENOUGH.—The New York safety committee are denounced at the south as selfish humbugs, who are as bad as the abolitionists!

The city of New York alone contains as many white inhabitants as the states of Georgia and South Carolina.

A poor widow lady in Lansing, Mich. named Mrs. Sparrow, who has several children dependent upon her, was "consolated" the other day by the intelligence that \$20,000 had been bequeathed to her recently by a dying relative. We wish all poor widows could get such bequests just at this time.

Under the head of "Marriage Extraordinary," the Louisville Journal of yesterday morning says: "The announcement yesterday that a young lady of wealth, family and personal beauty, down town, had eloped with an Irish laborer, set all the go-sippers agog."

GRAIN MOVEMENTS.—The Detroit Tribune of Thursday says: "Seventy odd sail of vessels have passed down during the past 36 hours, and all grain loaded; whose aggregate cargoes are estimated to be 1,125,000 bushels."

THE BURKE DIVORCE CASE.—The Chicago Journal, speaking of the trial of this case, says:

"It is a sad, sad picture of wretchedness, whatever the issue may be. Thus throwing open a home to the public scrutiny, where all was supposed to be happiness and comfort, and revealing partial glimpses of other homes upon which there are shadows, is no pleasing thought. It reveals some men in a true light to the community, and sub serves the excellent purpose of exposing them to the scorn and just indignation of the community. On the other hand, it shows conclusively that palatial mansions, rich dresses, liveried servants, costly viands, splendid conservatories and bank bills are not indices of happiness."

A PROFITABLE NEGRO.—A negro in Vicksburg recently won 2,000 for his partner in a race with a white man. The affair created much excitement, and it was said that \$10,000 changed hands on the result.

DRINKING IN PITTSBURG.—The sum expended for spirituous and malt liquors in Pittsburgh, wholesale and retail, every year, exceeds \$5,000. There are 763 licensed liquor sellers in the smoky city.

MUFFINS.—These deserve "extensive circulation." We have the recipe as a special favor from a lady friend, at whose table we have enjoyed some capital specimens, made as follows: To 1 quart of milk, add 2 eggs well beaten, a lump of butter half the size of an egg, and flour enough to make a stiff batter. Stir in half a pint of yeast. Let them stand until perfectly light, and then bake on a griddle, in tin rings made for that purpose. These are merely strips of tin three quarters of an inch wide, made into rings from 2 1/2 to 3 inches in diameter, without bottom—the ring being simply placed on a griddle, and the batter poured in to fill it.

Additional News from California.
It is believed that a majority of the people of California voted against calling a constitutional convention.
At 8 o'clock to-day the express arrived at Fort Churchill, whence the news of the result of the presidential election was sent to San Francisco and published in the extra Bulletin and Alta Californian before 9 o'clock. The news was expressed from St. Joseph to the telegraph station in the unprecedented time of six days. It produced a sensation. The republican state committee issued an address urging a general illumination of San Francisco to-morrow evening.

A school census of San Francisco gives 15,400 children under 18 years.
Esparanza, one of the ring-leaders of the filibusters who went into Lower California from Los Angeles country recently, has been killed in a fight. The band is committing murders and robberies by the wholesale on the Peninsula. The citizens of San Diego have sent relief to the Governor of Lower California.

A letter from Walla-Walla, Washington territory, to the Portland (Oregon) News dated Nov. 24, says that an express had just arrived in the Valley from the command of Capt. Dent, who was ordered out upon the emigrant road in the vicinity of Fort Boyd to investigate the report of the massacre of the emigrants. Capt. Dent found some 10 or 12 emigrants still alive, and subsisting upon the dead bodies of their associates. The messenger reports that some 12 dead bodies had been found, and that 10 more were still alive, secreted in parties of 3 or 4, for a distance of twelve miles in the vicinity of the attack. Some had died from actual starvation. Mr. Meyers, his brother's wife, Mrs. Meyers, with five children, and Miss Trimball, were among the living. The party were subsisting upon the dead body of Meyers, the father and husband of the family.

Capt. Dent will return in a few days, when a full report will be forwarded to the Portland press. The most horrible slaughter of so many innocent emigrants calls for a searching investigation by the authorities.

Lincoln in Kansas.

It is not possible for any one at a distance to conceive with what emotions of joy the news of the election of LINCOLN fills the people of Kansas. They have been so long ground by the heel of oppression, and drunk the bitter dregs of malice and spite, which two vindictive administrations have seen fit to pour out upon them, that the shout of victory that we hear echoed from one state to another, electrifies them with new life and new hopes; and even the dread of the cold winter, with its scanty supplies, is left far away in their transient joy. As the news travels westward the illumination of every hamlet and town, the booming of cannon, and the bright joyful faces, all speak of the "glad tidings of great joy," "LINCOLN is President," and in him the people think they see a man who will bring the government back to its pristine purity; one who dares to administer even-handed justice to those whom a southern oligarchy have proscribed.

In Topeka, the evening after the reception of the news of Lincoln's election, several buildings were illuminated, among them were Mr. Bartlett's store, Mr. Hovey's market, the news depot, and the Record office. The cannon which has been the faithful guardian of our town since the days of '53, spoke forth in its thundering tones, gladdening the hearts of the people for miles around.—*Topeka Record.*

A FEMALE VOTER IN NAPLES.—At the late vote on annexation in Naples, a woman who, from her heroism, has become famous, La Sangiovanna, claimed the right to vote, and voted. She is the leader of a large district in the city of Naples, and fought at Capua. Having borne arms she was adjudged to have gained the right of suffrage.

It has been calculated that the great Artesian bore at Columbus, Ohio, would, if passing through to the other side of the globe, strike exactly fifteen miles from the great Chinese wall, about 250 miles from Peking. It is suggested that they can run a telegraph through if they don't find water. They will probably, however, have an injunction come up through the hole from some established line.

Arrogant Axiom, by a Rich Man.—Poverty has no right to have any pride. The man who is excessively thin-skinned should take better care not to be out-at-elbows.

THE WHITE HOUSE LADIES.—The Springfield correspondent of the New York Herald writes:

Mrs. Lincoln has many callers. She does not appear to realize that she has been elected to reside at the White House for the next four years, but by the easy grace and dignity with which she receives those who call upon her daily, she shows that she possesses the necessary qualifications to assume the higher duties of the presidential wife at Washington. Her sister, Mrs. Miriam Edwards, of this city, an educated and accomplished lady, and a niece, a beautiful young lady of eighteen, will accompany Mrs. Lincoln to the White House and assist her in doing the honors of the president's levee.

Every household has its pet names. Mr. Jones surnames his helpmate by calling her "his idol." Jones, however, privately spells it I D L.

REPORTED FOR THE DAILY GAZETTE.
BY WISCONSIN STATE TELEGRAPH LINE, Office in Union Passenger Depot.

WASHINGTON, Nov. 27.
The Treasurer's report will be a brief business document, merely rehearsing the operations for the fiscal year without making a special recommendation. The condition of the finances will be the most interesting feature; immediate relief for the Treasury upon the meeting of Congress will be necessary to save the department from actual suspension. The warehouse system is found to be a great drawback on the treasury at a time like the present, when large quantities of merchandise can be stored if payment of duties be withheld. This expedient has satisfied even Mr. Cobb that it ought to be abolished.

CHARLESTON, Nov. 26.
The city is quiet to-day. The members of the legislature have mostly gone to Columbia. The regular session opens to-night. The Governor's message will be read on Thursday. It is rumored that troops are coming to Fort Moultrie. It is now evident that none will be sent to the convention unless strongly committed to secession.

COLUMBIA, S. C., Nov. 25.
The legislature has just read for the first time a bill to arm the state and to raise \$40,000 for that purpose.

Tenders of aid from other states continue to come to the Governor. All would sooner die or see the state subjected to the rule of the traitors than submit to a continuance of northern encroachments on her rights.

The Governor will send in his message at one o'clock to-morrow. He will recommend that the legislature should, to some extent, encourage and foster direct trade with Europe and the Continent, by taking upon itself a part of the losses which might follow from the establishment of direct trade, and to this end a proposition of some citizens of Charleston to establish a line of steamers between that port and Liverpool is favorably thought of. In the event of traitors arriving in the state after she shall have asserted her sovereignty, it is probable that he will advise some legislation, more particularly defining treason to the state, and settling the punishment for that offense.

It is believed that he will advise that a law be passed punishing summarily and severely, and heavily, perhaps with death, any person who circulates incendiary documents, avows himself an abolitionist, or in any way endeavors to incite the slaves to insurrection or insubordination, and that South Carolina shall bind herself to take \$50,000 worth of arms annually for five years from Major Ripley, in accordance with the proposition of that gentleman, and that a negotiation be entered into between South Carolina, Georgia and Alabama to fix upon a site for the armory. He probably will recommend what the people have already anticipated him in, that is to arm the state at the earliest practicable period, so as to prepare for the first act on the part of the federal government.

RICHMOND, Va., Nov. 26.
A grand mass meeting of all those who are in favor of the Union will be held at Fincastle on the second Monday in December.

A HOOSIER WIFE.—In the late catastrophe on the Ohio river, involving the loss of the fine steamer Pacific, there occurred an instance of heroic conduct on the part of a wife worthy of mention. Mrs. J. W. McDonald of this state, was traveling with her husband, who was lying very low at the time with consumption. The announcement of the conflagration was too much for his delicate nerves, and the poor man swooned and died amid the excitement.

The wife refused to leave the corpse of her husband to the merciless, fiery element, but stood bravely by his death-bed, until the flames licked the passage of the state room in which the corpse lay. In vain she offered almost fabulous sums of reward to any one who would convey the body to the shore, and in sheer desperation she caught up the lifeless form and bore it to the guards of the boat. It fell from her grasp, however, and was destroyed, it is presumed, with the boat. Mrs. McDonald remained in Uniontown until the disaster, in the hope of gathering up the ashes of her deceased husband.—*Lafayette Journal.*

THE LAST DIVORCE CASE.—A pious wife in Portland, Maine, sued for a divorce because her husband was profane. Judge Appleton told her to return to her husband and reform him.

COUSINS.—The sudden changes of our climate are sources of pulmonary, bronchial, and asthmatic affections. Experience having proved that simple remedies can act speedily and certainly when the early stages of the disease, recourse should at once be had to "Brown's Bronchial Troches" or Lozenges, let the Cough Cures of the throat be ever so slight, as by this precaution a more serious attack may be effectively averted off. Putic BARKERS and BARKERS will find them effective in curing and strengthening the voice. See advertisement. nov27daw

DIED.
In Union, November 24th, MARY, daughter of H. H. and Susannah Blodgett, aged 5 years.
Last spring, when the May flowers bloomed fresh and bright, little Estelle, only two years old, a bright flower of earth, was taken by angel hands and transplanted to the garden of Heaven. But the little baby angel was lonely, and seeing her little sister exposed to the evils of life she bent gently from the skies and whispered to her to come up higher; and there the sister angels warble in unison their songs of praise, and await the coming of their sorrowing parents. Kansas Relief Meeting.

A meeting of the citizens of Rock county is requested at the Court Room, Tuesday Evening, Nov. 27th, to organize a system of relief for the suffering people of Kansas.

WOOD! WOOD!!

We will take payment in wood for any number of new subscribers to the Weekly Gazette and Free Press, or to the Daily Gazette.

Illinois Currency.

We will take at par Illinois currency on subscription for the Daily or Weekly Gazette and Free Press.

Boxes for Papers.—Subscribers to the Gazette would do themselves a favor, as well as the carriers, if they would put in a box at their gates into which the paper could be dropped. If left at the door the wind is likely to blow the paper away to be covered with snow or spoiled by the rain. Those who heed this request will be entitled to the thanks of the carrier.

The Original Mirror of Italy opens at Lappin's Hall on Friday evening, Nov. 30, for a few evenings.

This magnificent series of panoramic pictures were executed by the celebrated artist, Saml B. Waugh. As a work of art, nothing of the kind can compare with it. It comes highly recommended by the press of other cities, and we have no hesitation in commending it to the citizens of Janesville. The reputation of the artist is proof enough of its artistic beauty. The panorama is divided into three distinct sections, embracing scenes in northern, central and southern Italy. The first illustrates the theatre of the late Italian struggles, and faithfully depicts the most interesting objects to be met with in the northern portion of that classic land. The spectator is then led on through Florence, with its many beauties; Rome, with its ruins; Naples, with its enchanting surroundings; Pompeii and Herculaneum—all these and many more beautiful scenes are correctly depicted. Go and see it.

RELIGIOUS SERVICES ON THANKSGIVING-DAY.—Trinity church will be opened for morning service at 10 o'clock, with a sermon by the Rector, Rev. H. W. Beers.

PROSPECTS OF THE LUMBERING BUSINESS.—The Green Bay Press says that "the most important feature, and one having the largest influence upon our prosperity, is the increasing demand for lumber at paying prices. We learn that nearly every lumbering establishment in this section will this winter stock their mills. Parties are already being organized for the woods, choppers, teamsters, and other laborers are in demand. The wages of these have very materially advanced. Working cattle are required for daily at enhanced values.—In short all the indications are favorable for a busy prosperous winter."

THE ATLANTIC MONTHLY.—The December number closes the present volume of this popular magazine. We have taken much pleasure in reading it during the year; and in the hands of its enterprising publishers, Ticknor & Fields, we have every reason to expect a continuance of the good things furnished in the past. They announce that the January number will contain the commencement of a new novel by Mrs. Harriet Beecher Stowe, a new novel by Mrs. Harriet Prescott, new stories by Miss Harriet Prescott, besides contributions from a large number of the most talented contributors in the country. The terms are \$3.00 per annum or 25 cents per number. They can be obtained at the bookstores, or subscriptions may be sent directly to the publishers. We commend the Atlantic to such as desire choice reading at their firesides during our long winter evenings.

MECHANICS INSTITUTE.—There will be a meeting of the members of the Mechanics Institute on Friday evening Nov. 30, 7 o'clock, at the office of H. N. Comstock Esq. A full attendance is requested.

By order, IEA MULTIMORE, Pres.

A CHINESE PUZZLE.—Gov. Letcher's letter reached Madison, by telegraph, in the following questionable shape. "We copy from the Argus, comments and all. [Somebody has been writing a letter—this is the way we get it, the telegraph working badly last night.]"

Constitutional obligations with strict fidelity. He then indicates his determination to defend the state of Virginia, necessary between the southern states and their assailants come from what generation they may."

We don't wonder that brother Calkins was puzzled what to make of this farraigo.

A MAMMOTH NATURAL CURIOSITY.—Mr. H. Salisbury, formerly of De Kalb county in this state, called upon us this morning for the purpose of exhibiting some specimens of petrifications discovered by him in the Pike's Peak region, which certainly savors strongly of the marvelous. He has with him several specimens of petrified wood, fungus, or common "road stool," as it is popularly known, etc. The greater curiosity of all, however, which he has brought with him, is a section of a tree found about thirty miles west of Pike's Peak, upon the high, cold, and dreary, and barren waters of the Platte and Arkansas rivers. This tree was found standing in its natural position, as if growing, and turned to solid stone.—It measured twelve feet in diameter. Of this tree Mr. S. has brought with him two pieces, one of them weighing three thousand pounds, and the other half as many.—Chicago Journal.

Canning is only the mimic of discretion, and may pass upon weak men just as pertinence is often mistaken for wit, and gravity for wisdom.

BE CAREFUL OF FIRE.—It cannot be amiss now and then to call attention to the necessity of being careful with fire. A stove too near the floor or left unlooked at night, a foul or defective chimney, a stove-pipe passing too near the woodwork of a partition, or a few live coals thrown out with ashes, may involve the loss of thousands of dollars, and perhaps many valuable lives.

At Newell's Literary Emporium, No. 9, Main street, Janesville, Wis., for 1891, unaltered, and expressly for the use of Banks.

THE FAMINE IN KANSAS.

To the People of Wisconsin.

EXECUTIVE OFFICE, Madison, Wis., Nov. 22d, 1890. Since the issue of my Proclamation for the Annual Thanksgiving, calling upon you, blessed in a remarkable degree this year with the abundance of the fruits of the earth, to render thanks to the Bountiful Giver, the death have come to us in the shape of a famine in another portion of our country, where the rains have not fallen, and the parched earth has borne no crops.—In the midst of our abundance, it is very difficult to realize the fact that but a few hundred miles from us, not less than twenty or thirty thousands of our fellow-beings are at this moment suffering greatly, from the total failure of their crops. Such a startling fact needs to be brought to the knowledge of a people who are overlooking with abundance, to cause speedy help to be sent to the needy.

Citizens of Wisconsin! the destitute, starving condition of thousands of the settlers of Kansas is a sad and painful sight. Immediate and liberal contributions of money, to pay provisions and clothing, and pay freight on donations forwarded, are imperatively needed to save the lives of men, women and children who have literally nothing to eat, and nothing to sell to raise means for the purpose of food and clothing. In no better way can you exhibit your thankfulness for blessings conferred by providence than by showing love and charity to the needy.

As the executive of the state, I urge that wherever Relief Committees have not been already formed, action to that end be taken at once. Contributions of provisions may be sent forward, in many cases free, on all the public thoroughfares, and should be marked "Kansas Relief," and addressed to "Gen. S. C. Tanager, Atchison, Kansas." Money is much needed, to pay freight on contributions now going forward, and may either be forwarded by the local committee, or direct (in drafts where practicable) to the order of Gen. Tanager, as above. Whatever is done should be done speedily; for the lives of thousands of our fellow-beings are dependent upon our charity and love.

Reported for the Janesville Gazette.

BUMP & GRAY,

GRAIN AND PRODUCE DEALERS.

JANESVILLE, NOVEMBER 22, 1890.

The market was active to-day with good receipts of all kinds of produce. Receipts of wheat were about 4,000 bushels, which sold at 70¢ to 75¢ for milling spring, and 65¢ to 70¢ for shipping. The decline on common qualities is owing to the recent unfavorable advices from the lake shore, eastern and foreign markets.—Millers are a little short yet, consequently choice grades remain firm at full rates. Rye may be quoted 28¢ to 30¢, we note sales of several lots, today at 33¢ and 35¢. Barley is also dull and lower, with sales at 35¢ for good and 30¢ for common. Oats are quick sale at 10¢ to 15¢; sales of 200 bushels to-day at these figures. There were 25 or 30 head of dressed hogs on the market which sold at a range of 4.75¢ to 5.75¢ per 100 pounds for light and heavy. Butter and eggs in demand at full prices.—Hides declined 1/2¢ per pound, sales today at 45¢ for green and 50¢ for dry. Other stuffs moderate.

We make up prices as follows:

WHEAT—good to choice milling spring 70¢ to 75¢; fair to good dry shipping 65¢ to 70¢; damp and grown 55¢ to 60¢.

OATS—rather dull at 15¢ to 17¢ per bushel.

RYE—declined to 35¢ to 36¢ per 60 lbs.

CORN—old shelled 30¢ to 32¢ per 60 lbs. New in ear 18¢ to 20¢ per 100 lbs.

BARLEY—dull at 25¢ to 30¢ per 50 lbs, common to choice quality 28¢ to 30¢.

TIMOTHY SEED—in good demand at 1.60¢ to 1.80¢ per 40 lbs.

DRESSED HOGS—active demand at 4.75¢ to 5.75¢ per 100 lbs, heavy, and 4.50¢ to 5.00¢ light.

POTATOES—plenty at 15¢ to 20¢ for good to choice, common 10¢ to 12¢.

BUTTER—wanted at 15¢ to 17¢ for good to choice quality.

EGGS—scarce at 14¢ to 16¢ per dozen.

HIDES—green, 45¢ to 50¢; dry, 50¢ to 55¢.

FLOUR—springs at 2.50¢ to 2.75¢ per 48 lbs.

POULTRY—dressed turkeys, 0.34¢; chickens, 5¢; SHEEP PELTS—range from 20¢ to 40¢ each.

Cephalic Pills.
CURE
Sick Headache.
CURE
Nervous Headache.
CURE
All kinds of
Headache.

By the use of these pills the periodic attacks of *Nervous or Sick Headache* may be prevented; and if taken at the commencement of an attack immediate relief from pain and sickness will be obtained.

They seldom fail in removing *Nausea and Headache* to which females are so subject.

They act gently upon the bowels—improving *Cholera*.

The Literary Men, Students delicate females, and all persons of *sedentary habits*, they are valuable as a *Laxative*, improving the *appetite*, giving *tone* and *vigor* to the digestive organs, and restoring the *natural elasticity and strength* of the whole system.

The **CEPHALIC PILLS** are the result of long investigation and carefully conducted experiments, having been in use many years, during which time they have prevented and relieved a vast amount of pain and suffering from headache, whether originating in the nervous system or from a deranged state of the stomach.

They are entirely vegetable in their composition, and may be taken at all times with perfect safety without exciting any change of diet, and the absence of any disagreeable taste renders it easy to administer them to children.

BEWARE OF COUNTERFEITS!
